

Transforming Medication Safety NI ECHO Network

NETWORK MEMBERS WILL:

WHAT IS ECHO?

Project ECHO is a collaborative learning methodology rooted in the creation of ECHO networks – virtual communities of practice that connect professionals together to share knowledge and best practice, as well as provide peer support.

AIM OF THIS NETWORK

A specific aim with the TMSNI strategy is to 'Facilitate new ways of connecting staff to share and spread best practice'

TARGET AUDIENCE

A key commitment of the TMSNI strategy is to encourage networks that enable people to learn and work together to improve medication safety across the health and social care system, building upon existing communication platforms and structures.

Attend **one ECHO session monthly** for up to 90 mins

Learn from and gain access to experts in this field The TMSNI Programme Hub team includes: Pharmacy Lead - Medicines Management & Governance Directorate of Primary Care, SPPG and Senior Principal Pharmaceutical Officer, Department of Health.

Listen to best practice examples from people working in the sector and be able to apply these to HSC setting

Discuss opportunities A TMSNI Project Echo programme will assist to increase awareness, engagement and commitment to the TMSNI implementation plan. It will also assist to spread learning, generate new ways of thinking and provide HSC staff with the opportunity to connect with others from different sectors and specialities within the HSC

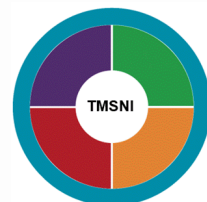

Make valuable connections and continue to support colleagues across sector

ECHO PROGRAMME LAUNCHING VIA MS TEAMS TUESDAY 25TH JUNE 2024 FROM 10.00AM TO 11.30AM OUR TOPIC WILL BE MEDICATION WITHOUT HARM –UNLEASHING SOCIAL MOVEMENT FOR CHANGE
